

IBC Heater Baseboard

Product Specifications

Overall	1069mm x 1010 mm
Thickness	26mm
Weight	16.7 kg
Rated Voltage	230V a.c.
Power Density	1.81 kW/m ²
Rated Power	1300W
Number of elements	4
Controlled Max Normal Temp	85°C

Give your product a warm glow for better flow

- > The Heater Baseboard is designed as a metal encased, electric heated drop-in base that raises the temperature of your liquid product and liquefies solids for improved discharge from CEVA Pallecon Intermediate Bulk Containers (IBC's)
- > Ideally suited to viscous and difficult to handle products, it covers the IBC base surface to provide safe, gentle and effective heating with no risk of "hot spots"
- > It's a robust, heavy duty plug-in ancillary appliance that will heat 1000 litres of product up to a maximum temperature of 45 - 50° C within 24 - 48 hours depending on product thermal characteristics and ambient temperature
- > Contains four independent electric heating elements each with a control thermostat and thermal cut-off to ensure trouble free performance
- > The snap action thermostat is at a pre-set switching temperature of 85° C
- > A lifting strap is conveniently fitted for easy handling
- > Australian manufactured, supports a load of 1500 kg/m²

- > The sealed internal heater has waterproof sealing to withstand mechanical forces of handling and transportation under load. It has an International Protection rating of IP68
- > Ideal applications include fats & oils, glucose, syrups and a range of other food ingredients
- > Designed specifically for use for Ceva Pallecon IBC's including: M2, M3, Maxicon and Pallecons
- > Highly efficient, flexible rental system - hired and de-hired with Pallecon IBC's through our depot network

The Heater baseboard is an electrical appliance and must only be used with Residual Current Device (RCD) protection.

CEVA pallecon

the Rental Market leader in Intermediate Bulk Container handling solutions for the storage, handling & distribution of raw materials, ingredients & finished products

- Liquid, Dry Bulk & Security
- Hazardous Goods
- Plastic Containers & Stillages
- Ancillary Equipment & Bags
- Paltrak - Integrated Control System

Distribution depots Australia and New Zealand wide

- > New South Wales
- > Victoria/Tasmania
- > Queensland
- > South Australia
- > Western Australia
- > Auckland
- > Christchurch
